FONTAINE SELECT
Now customizing your trailer is easier than ever

Fontaine Select Dealer Pricing Link
http://www.fontainetrailer.com/dealer/
Fontaine understands that there are applications that require special features, options and equipment that are not available on "stock" trailers. To help customers with these special applications, we developed a streamline program to get the job done: Fontaine SELECT. This exciting new service is available exclusively through Fontaine platform trailer dealers.

- All work done by SELECT is part of your trailer warranty. This reduces your liability significantly.
- Add “customer needed product” to your trailers already completed at Fontaine.
- Trailer repairs including insurance work now available.

Visit your Fontaine dealer today for the details!

If you need special equipment added to your Fontaine trailer, SELECT is here to help!
